Hi John:

We received a new small mine notice and fees from United States Gypsum for their Moore Road Trust Land Quarry located in:

NE1/4 NE1/4, Section 36  
Township 22 South, Range 8 East  
Emery County, Utah

Along with the application was a copy of a notice submitted to you. Since they already have your ML #48909 Gypsum, I will not send you a copy unless you request it.

Have you cleared for archaeological, before you issued your lease? We haven't received any notification from you for this project.

Thanks,  
Joelle
